

Snow Leopard Landscape Management Planning & Mapping Stocktaking Workshop 17-18 January, Kathmandu, Nepal

Objectives

The fundamental objective of the workshop is to share knowledge & build capacity in snow leopard range countries for management planning for GSLEP landscapes. This includes:

- Review inputs from Kathmandu workshop
- Review country-wise progress, with highlights on challenges esp. regarding
 - Climate smarting
 - Mapping
 - Expanding to large landscapes
 - Strategic planning and use of Open Standards
- Fund mobilization
- Organizational structures to ensure effective landscape level, participatory implementation
- Discuss the way ahead:
 - Need for any support from Asia High Mountains, Snow Leopard Trust team or others
 - Plan for capacity enhancement of frontline staff and other implementing stakeholders

Day 1: 17 January 2017		
08:30	Workshop Opening Brief 3-minute description of workshop overview & objectives Opening speeches by dignitaries (see separate sheet for details)	120 min
